

Protect Your Crops from Mold, Mildew & Other Contaminants

The CleanLeaf Clean Room Series was specifically engineered for cultivators looking for the safest, most effective and efficient solution for air-purification needs.

With a powerful 2000 CFM blower, air is pulled through the 99.99% efficient, high-capacity V-Bank HEPA filter to eliminate any airborne threat in your grow facility and provide plants medical-grade clean air.

Each unit filters approximately 15,000 cubic feet.

In order to create the proper air pattern, we always recommend placing two units.
