

Avoid odor complaints while eliminating mold & mildew with 112 lbs of industry proven activated carbon filtration.

Controlling odor in and around your facility is a constant challenge. The CleanLeaf Odor Series was specifically engineered for cultivators to help eliminate the odor of even the most potent flowers while protecting them from contaminants like mold and mildew. CleanLeaf units provide a safe, effective, and efficient solution using a powerful 2500 CFM blower to pull air through layers of 95% efficient D.O.P. HEPA filter media and 16 carbon canisters, ensuring maximum adsorption.
